TAGAC GUEST SPEAKERS

Monday, Nov. 18th 7-8:30pm
Ferdinand T. Day School

Dr. Jack A. Naglieri, PhD. is a Research Professor at the University of Virginia, Senior Research Scientist at the Devereux Center for Resilient Children, and Emeritus Professor of Psychology at George Mason University.

Dr. Naglieri developed the NNAT (Naglieri Nonverbal Ability Test) which uses minimal language and primarily diagrams for assessment, making it a good tool for students from culturally and linguistically diverse backgrounds.

ACPS administers the NNAT to all first graders every Fall as a means to identify students for Talented and Gifted Services.

Come learn how the test was created, what it identifies, and how it is used.

Monday, Dec. 16th 7-8:30pm
Ferdinand T. Day School

**Mr. William Knudsen, Director Government and Affiliate Relations,
National Association for Gifted Children**

He works at both the Federal and local levels with NAGC's advocacy partners to break the impediments obstructing services for our gifted and talented students. Prior to NAGC, Bill held positions at the U.S. Senate, Committee for Economic Development and the Department of Education.

Topics to be Covered: Federal Policy and Gifted Learners
 Addressing Equity in Gifted Education
 Local Advocacy Strategies

Translation Services Provided
