BACKGROUND:

In 2015, the Alexandria City School Board began the process of Redistricting with the goal of implementing new school boundaries. Redistricting is needed because all but two elementary schools are at capacity and enrollment is projected to continue to grow over the next decade. The process will involve significant parent and community input through a variety of ways.

In June 2015, the Alexandria City School Board furthered the Division-wide Redistricting process to address capacity challenges across the school division by selecting an independent third party consultant, Reingold LINK, in collaboration with a Redistricting Steering Committee comprised of three School Board members and senior level staff, to provide guidance and facilitation for a Redistricting Review Committee of 35 parents and community members from across the Division.

RECOMMENDATION:

The Steering Committee recommends that the School Board review the attached policies.

IMPACT:

By reviewing the policies related to Redistricting, the School Board ensures that student placement decisions are aligned to support academic excellence and educational equity.
