My kids are in elementary school so are focused on that age:

Please continue requiring masks indoors for all, and follow FCPS in making vaccines mandatory (with an exemption opt-out to include mandatory frequent testing). Delta spreads significantly more easily, and the kids are not yet eligible to get the vaccine. Our rule at home is to only be indoors with vaccinated family, so why send them to a school with unvaccinated adults? Although both can spread Covid, vaccinated individuals are far less likely to get it in the first place. Every step we can take that lowers the risk of our kids getting Covid (and the Delta variant) is worth taking.
