

2020–2025 Strategic Plan: Equity for All

Talented and Gifted (TAG) Identification Process

School Board Meeting March 10, 2022

Essential Questions

- Where is ACPS currently with its Local Plan and what are its components?
- 2. What is the **current** identification process for TAG?
- 3. What is the **process** to update the Local Plan?
- 4. What has the committee accomplished so far?
- 5. What are the next steps for the steering committee?

Components of the Local Plan

Ensuring There Is an Alignment With Best Practices

Data Analysis From 2020–2021

* In 2021, if a grade 9 student was in a course leading to a verified credit and has a grade of D or higher AND an SOL score of 350 - 399 or higher, the student earned an Locally Awarded Verified Credit. Overall, 27% of Grade 9 students did not have an SOL score.

- Our data has remained consistent for years.
- The disproportion of access and opportunity to advanced services within our school system is large.
- Students who identify as Black/African American or Hispanic/Latino, as well as our economically disadvantaged, English Learners (EL), and Students With Disabilities (SWD) students, are underrepresented within the TAG program.
- Our Local Plan needs to adapt to address the inequities of access and opportunity.

Services and Identification Procedures

General Intellectual Aptitude (GIA) in Grades K–12

Universal Screening in Grade 1 using the Naglieri Nonverbal Ability Test (NNAT)

Students receiving GIA services who typically demonstrate superior ability across a broad range of intellectual disciplines beyond their age-level peers

Universal Screening in Grade 3 using the **Cognitive Abilities Test** (CogAT)

Students who exhibit superior performance and ability in specific subjects such as reading, mathematics, science, and social studies

Services for Students

Specific Academic Aptitude (SAA) in Grades 4–12

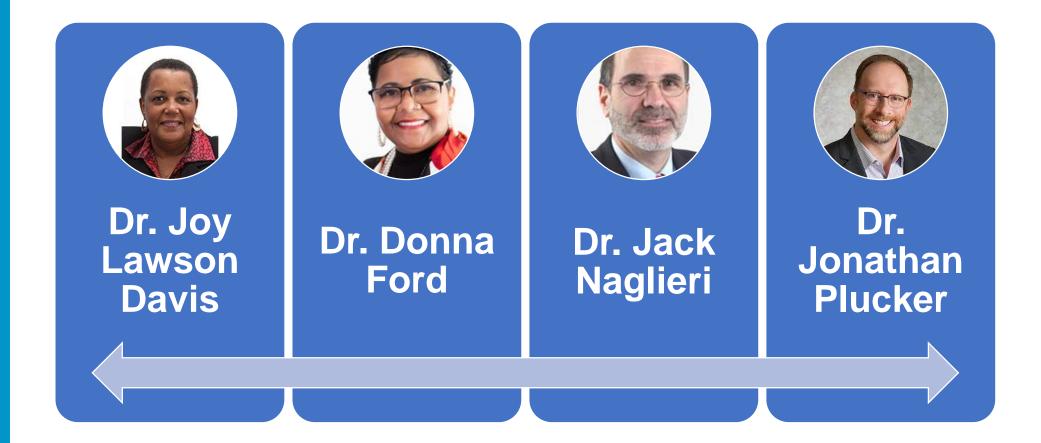

GIA: Students who are served in the general education setting by the classroom teacher

Grades 4–5: Pull-out services for math and Language Arts

Middle and high school: Honors and Advanced Placement (AP) classes

Reaching Out for a National Perspective

ALEXANDRIA CITY PUBLIC SCHOOLS | 2020–2025 STRATEGIC PLAN: EQUITY FOR ALL

Proposed Paradigm Shift: Focus on Services

Advanced Academic Services

Proposed

Gifted and Talented

Current

ALEXANDRIA CITY PUBLIC SCHOOLS | 2020–2025 STRATEGIC PLAN: EQUITY FOR ALL

Highlights From the Proposed Operational Definition of "Giftedness"

Identifies levels of services for students in need of advanced academic services Screens students using multiple sources of information Requires a differentiated curriculum for advanced learners that is engaging, complex, and differentiated in the depth, breadth, and pace of instruction

Is essential for identified students to access educational resources to enhance their learning

Is grounded in equity and inclusion

Develops the strengths and talents of all students and offers a continuum of advanced academic services to meet a range of student needs Provides increasing levels of challenge and is designed to emphasize the importance of matching services to student needs with flexible entry points

Key Themes From the Proposed ACPS Statement of Philosophy for the Education of Gifted Students

Aligns with the National Association for Gifted Children's (NAGC's) definition of "giftedness" and its philosophical beliefs of how to serve students within our school system

ACPS is committed to providing challenging learning experiences. Talented students come from all racial, ethnic, and cultural populations as well as all economic strata.

Students need support and guidance to develop socially and emotionally. Students can have learning and processing disorders that require specialized intervention and accommodation.

Students require access to learning opportunities to realize their potential.

Students require varied services based on their changing needs. (NAGC, 2019).

Next Steps

Develop a Service Model That Focuses on Talented Development and Tiered Instruction

Develop Identification Models That Focus on Eliminating Access and Opportunity Gaps

Develop a Timeline for Implementation

Continue to Gather Feedback From Stakeholders and Experts in the Field
