Below are some guiding questions to consider when reviewing these documents. You are encouraged to make notes to share your reflections at our next meeting on July 14.

Guiding Questions for Reviewing Documents

Are we currently following the processes outlined in our Board policies and Advisory Committee Handbook?

Are the bylaws of each advisory committee aligned with our Board policies and strategic plan?

What is working well?

What are some areas for improvement?

Are there any key stakeholder groups not currently represented in the bylaws of the advisory committees?

How does the triad of community representatives, ACPS staff and School Board liaisons interact on each committee?

Are there any changes you would suggest that the Board make to these documents?

What outstanding questions do you have after reviewing the documents?

What questions should we ask when we reach out to the advisory committee chairs?

What questions should we include on a survey for current and former advisory committee members?
