

Preface

The following document contains DRAFT Options for the Redistricting Review Committee to review and analyze. These options only serve as the starting point for creating viable scenarios that meet the project objectives and adhere to ACPS redistricting criteria. The options that are shown account for planned changes to facilities as identified in the ACPS facilities master plan.

One question that always arises is, “How do these boundaries account for changes that happen in different years?” This is a good question and one that applies to this particular process.

| ACPS - Planned Facility Changes | | | |
|---------------------------------|--------------|------------------|---------------------|
| School | K-5 Capacity | New 6-8 Capacity | Opening School Year |
| John Adams*** | 595 | | 2018-19 |
| James Polk | 850 | | 2017-18 |
| New West ES | 638 | | 2018-19 |
| Patrick Henry K-8* | 728 | 234 | 2018-19 |
| New Douglas MacArthur** | 775 | | 2021-22 |

*6-8 grade students living in Patrick Henry zone are assumed to attend Patrick
 **Douglas MacArthur moves to swing building in 2019-20
 *** John Adams' K-5 capacity will decrease to 595 in 2018-19 to accommodate 20 Pre-K classes.

The table to the right shows the planned facility changes that the Review Committee is planning for. The best approach to redistricting is to first build a plan that factors in all of the planned changes, and then to determine how to phase in boundaries incrementally to account for each year’s change in facilities and capacity. Planning for the out-year of the timeframe is best because boundaries can be incrementally phased in to account for annual changes and students are only moved once during the process. In the instance of ACPS, the committee is charged to build a plan that takes ACPS out to 2019-20. The 2019-20 year is the target year because this is when Douglas MacArthur moves to a temporary building during its modernization.

Even though 2019-20 is the final target year, the table above reflects that most of the school facility changes will occur for the 2018-19 school year. It is very likely that 2018-19 will be the year that most students are affected as a result of this redistricting plan, with smaller numbers of students possibly affected in 2017-18 and in 2019-20.

2015-16 Capacity and Utilization Statistics

The table below shows the 2015-16 K-5 capacity for ACPS elementary schools. Pre-Kindergarten classrooms are not included in these capacity figures. Also, the 6-8 grade classrooms at Jefferson-Houston and Patrick Henry are not included in the K-5 capacity figures. The 2019-20 K-5 grade capacity figures are also represented in the table below. As stated in the Long Range Educational Facilities Plan, the target range for school utilization is between 90-110%.

| Elementary School | 2015-16 K-5 Capacity | 2019-20 K-5 Capacity | K-5 Enrollment (2015-16) | K-5 Enrolled Utilization (2015-16) | 2015-16 K-5 Live-In | 2015-16 K-5 Live-In Utilization (2015-16 Capacity) |
|---------------------|----------------------|----------------------|--------------------------|------------------------------------|---------------------|--|
| Charles Barrett | 500 | 500 | 458 | 92% | 327 | 65% |
| Cora Kelly | 371 | 371 | 355 | 96% | 331 | 89% |
| Douglas MacArthur | 554 | 775 | 712 | 129% | 679 | 123% |
| George Mason | 368 | 368 | 558 | 152% | 546 | 148% |
| James K Polk | 756 | 850 | 743 | 98% | 744 | 98% |
| Jefferson-Houston | 407 | 407 | 322 | 79% | 370 | 91% |
| John Adams | 634 | 595 | 890 | 140% | 775 | 122% |
| Lyles-Crouch | 375 | 375 | 411 | 110% | 356 | 95% |
| Matthew Maury | 350 | 350 | 442 | 126% | 386 | 110% |
| Mount Vernon | 755 | 755 | 853 | 113% | 836 | 111% |
| Patrick Henry | 592 | 728 | 548 | 93% | 558 | 94% |
| Samuel W Tucker | 620 | 620 | 749 | 121% | 1023 | 165% |
| William Ramsay | 716 | 716 | 870 | 122% | 933 | 130% |
| New ES | NA | 638 | NA | NA | NA | NA |
| Divisionwide | 6998 | 8048 | 7911 | 113% | 7864 | 112% |

As stated in the Long Range Educational Facilities Plan, the target range for school utilization is between 90-110%.

Walk Zone Statistics*

The below walk zone counts are based on the current 2016-17 boundaries and could be changed when new boundaries are established.

| Total K-5 Living With Walk Zones | |
|----------------------------------|------|
| Current ES Zones | 3839 |
| Option 7 | 3739 |
| Option 8 | 3766 |
| Option 9 | 3766 |

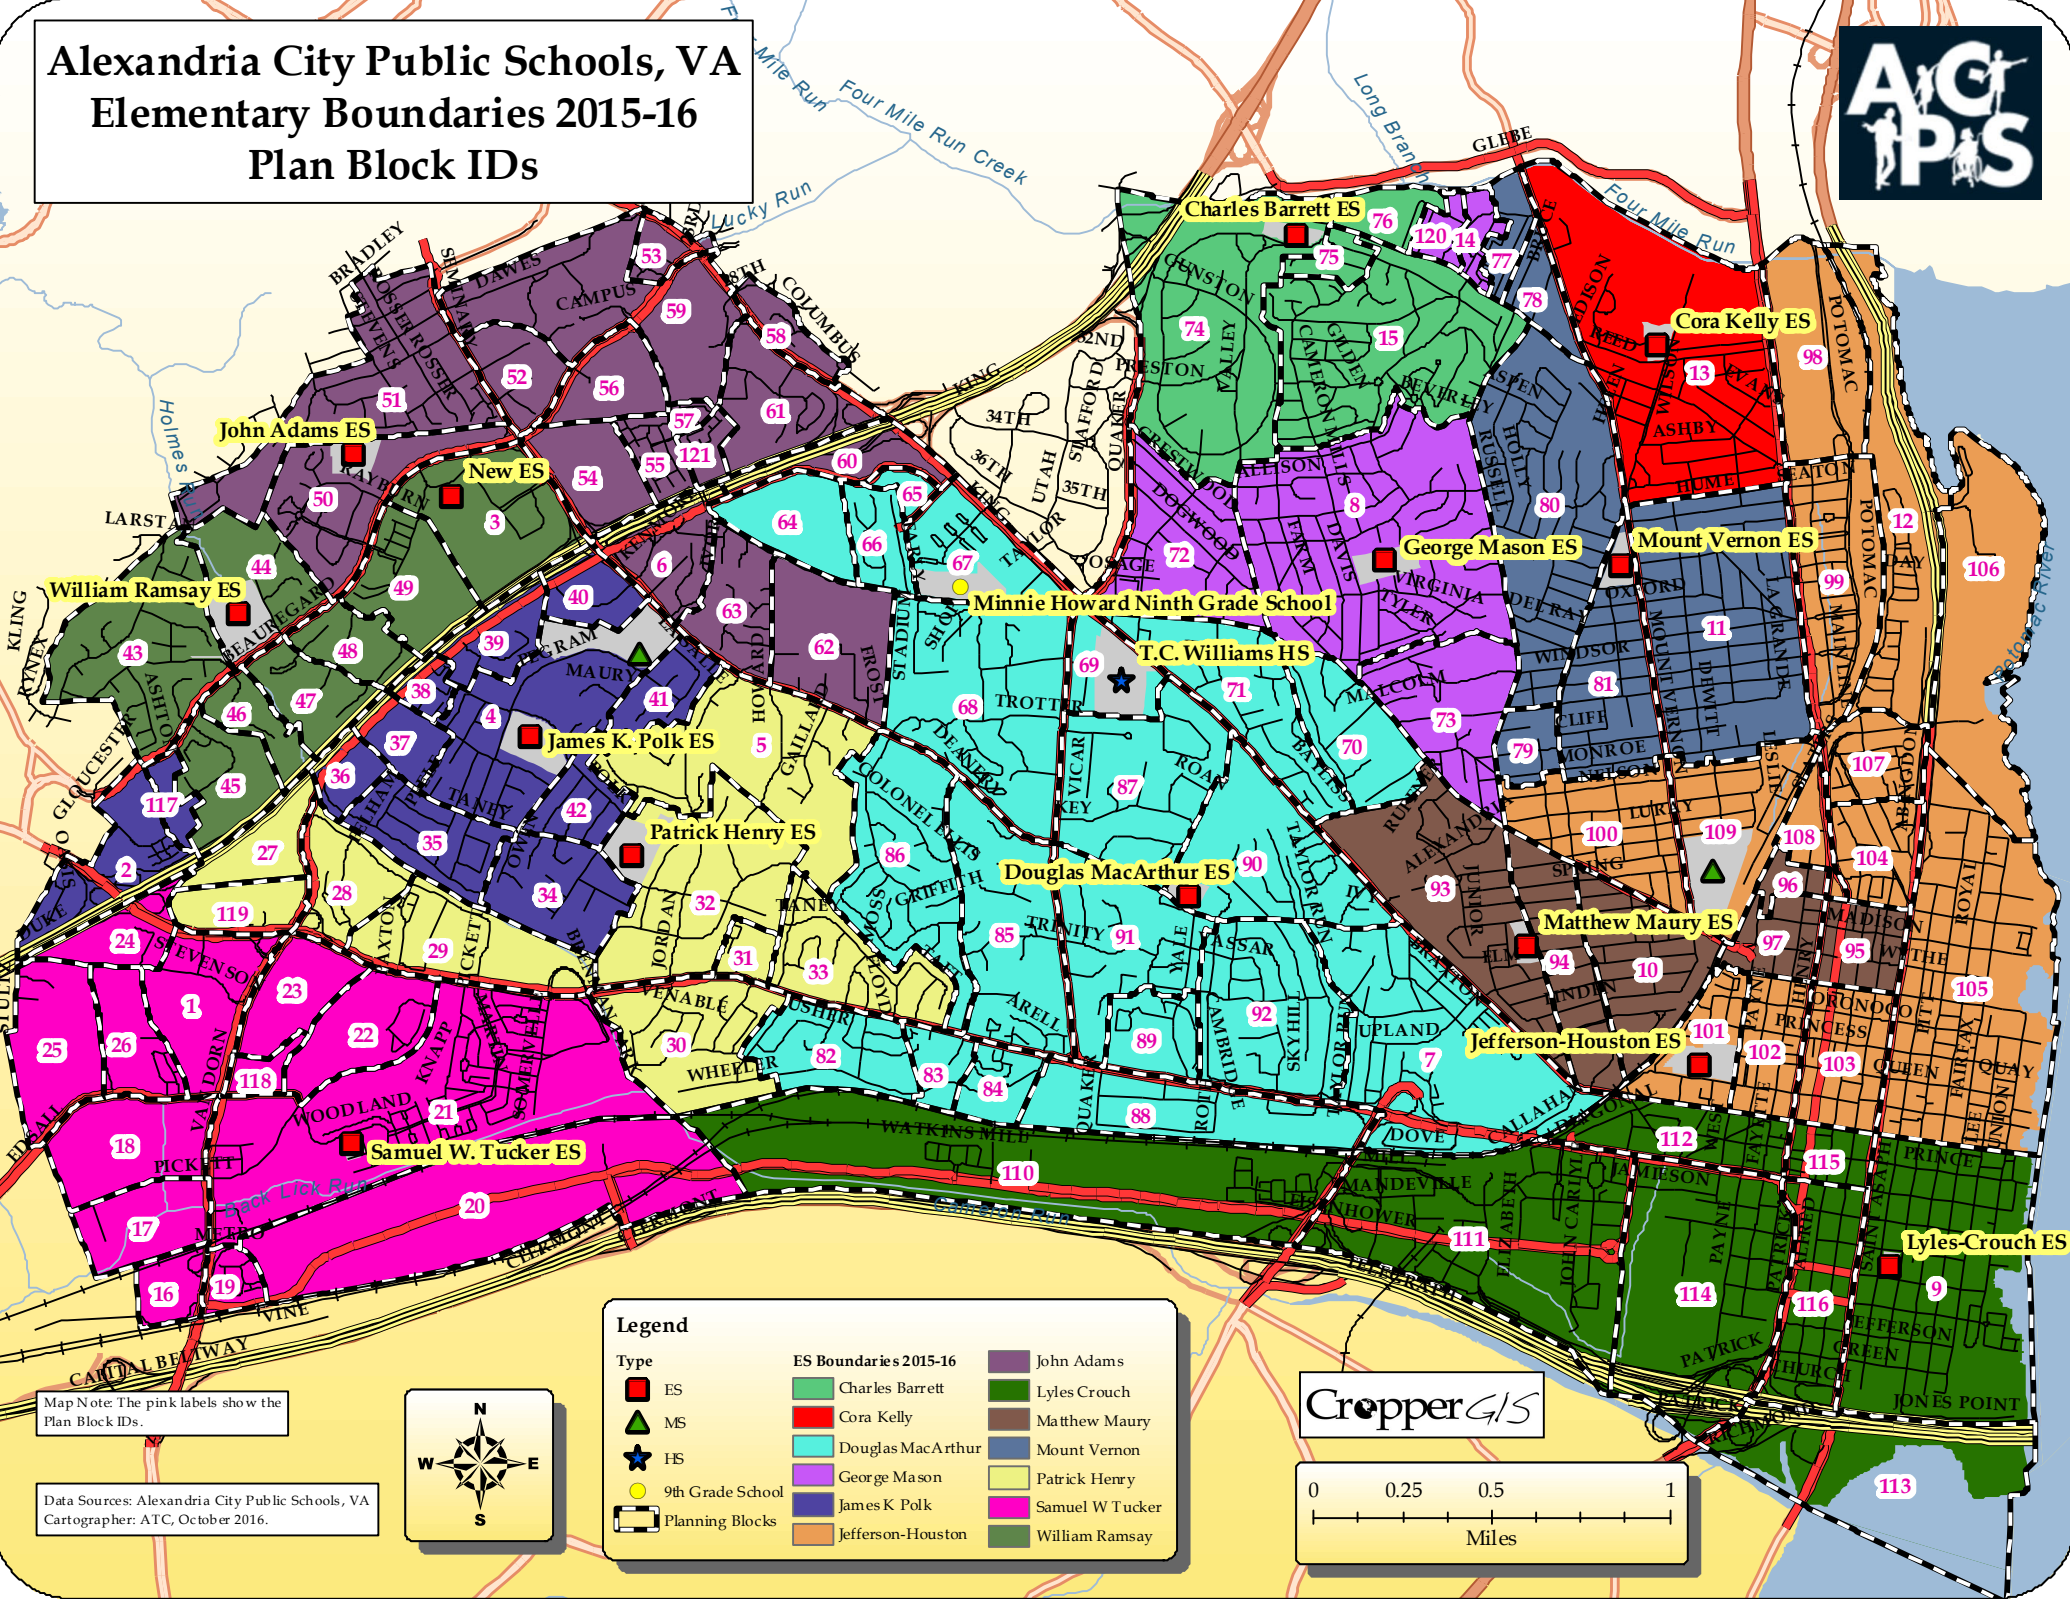

This data assumes that students zoned for the new ES who live south of North Beauregard Street and west of Seminary Road will walk to the new ES. These counts also assume that students within Plan blocks 42 and 34 (Current James K. Polk walk zone) can still walk to Patrick Henry in all of the options.

*Based on 2016-17 K-5 enrollment data, the number of walkers is approximately 3380. This decrease is primarily due to capacity reassignments and other types of transfers where students are provided transportation by ACPS to a school outside of their zoned school boundary.
