As an alumnus it fills me with PRIDE to boast to my friends and family that I came from a school with such a DIVERSE population (the Hall of Nations, representing countries of ALL students, was such an amazing thing to see each morning.) How utterly devastating and embarrassing I feel knowing that TC Williams would be rolling over in his grave if he knew that I, an African American woman, was a student at his DIVERSE school. This man did everything in his power to keep people who looked like me away. Please be on the right side of history and allow alumni to once again be proud of where we came from.
