

Blueprint Success Metrics

- Family engagement is not a ‘one-size-fits-all’ set of steps or programs with standardized practices but rather a set of constantly changing interactions and relationships among families, schools, and communities.
- Family engagement practices look different across time, depending on the school’s individualized plan goals and the child's grade level.

Family Engagement Instruments and measurement structure					
Instrument	Brief Description	Administered To	Timeline	Measure Structure	
Workshop Surveys Parent Participation	These surveys will be given to parents at the end of each workshop or activity. They will be translated in Arabic, Spanish, Amharic & Arabic.
