Hello, I am strongly recommending and requesting that Zoom classrooms have a smaller number of students. Distance learning can be effective with real face-time and engagement from a teacher. I have a very bright child who loves learning but being one of 22 kids on a screen is chaotic and not engaging. I have another child in a special ed zoom class with only a few other children who is thriving and loving distance learning; in fact, he is excelling and really learning new material. Please make zoom classes smaller! Thank you.
