**BACKGROUND:** Collection and reconciliation of school safety data is a requirement of both school board policy and our school law enforcement partnership memorandum of understanding (MOU).

## BOARD BRIEF

- Virginia code 22.1-280.2:3 requires the school board in each school division in which the local law-enforcement agency employs school resource officers to enter into a memorandum of understanding (MOU) with such local law-enforcement agency that sets forth the powers and duties of such school resource officers, and other stakeholders. The MOU details the requirement to collect, review and reconcile specific data related to incidents on school campus grounds.
  - As it relates to the MOU, there is also a requirement to provide a summary of the quarterly meetings that occur with APD in regards to the SRO program:
    - The most recent SRO/MOU Quarterly Meeting occurred on May 9, 2024.

**RECOMMENDATION:** The Superintendent recommends that the School Board review this quarterly report.

### **IMPACT:**

The provision of data related to school safety allows for transparency, community engagement, and the opportunity to further promote safe and secure school and campus environments for students, staff, families and all others.
