The only statement made to date from the staff was how ACPS was basing their decisions on CDC guidelines, and now that the CDC has changed their guidelines from 6 to 3 feet, ACPS has decided to conveniently change their narrative and take the easy road for the remainder of the year, while my son suffers from virtual learning. My son deserves better than this, better than you, and the board and superintendent should be ashamed of themselves for their insulting and blatant lack of effort to serve our children and lack of making decisions based on parental and student feedback throughout this entire process.</p>
