

Superintendent's Evaluation Procedures

Alexandria City Public Schools

Alexandria, VA

2019

Introduction and Overview

The Alexandria City School Board developed a new Superintendent's Evaluation instrument through an ad hoc committee, in accordance with Policy BCE: School Board Committees. The current Superintendent's Evaluation Instrument was last adopted by the School Board in June 2016. The Board also developed updated performance criteria for the Superintendent's evaluation.

In accordance with Virginia Department of Education (VDOE) Policy CBG-1, local school boards must evaluate the Division Superintendent annually. The Alexandria City School Board has elected to use the Guide for Uniform Performance Standards and Evaluation Criteria for Superintendents, created by the VDOE which allows local school boards to adopt the evaluation system "as is" or make adjustments tailored to a specific school division's needs.

The School Board, at its April 3, 2019 retreat, determined that the Superintendent's Evaluation Criteria and Instrument should be reviewed and the Chair recommended the following Board Members to serve on the Superintendent's Evaluation Criteria Development Committee:

- Vice Chair Veronica Nolan
- Board Member Meagan L. Alderton
- Board Member Christopher A. Suarez

Key Components of the Superintendent's Evaluation

The Board appointed ad hoc committee in collaboration with the superintendent of schools, Dr. Gregory C. Hutchings, Jr., met in several planning sessions between April 2019 - October 2019. Through this planning and collaboration, the ad hoc committee developed the following key components of the superintendent's evaluation:

- Seven performance standards from VDOE
- Performance indicators and ACPS areas of focus aligned with the seven performance indicators
- Measurements, evidence, artifacts, and Key Performance Indicators (KPIs)
- A goal-setting conference, a mid-year update, and a final review process
- A four-tiered rating structure for each performance standard
- A four-tiered summative rating on all seven performance standards

Philosophy

The purpose of this evaluation system is to enable the Superintendent to build professional capacity, to increase his leadership skills, to maintain direct accountability to the School Board, and to enhance the overall effectiveness and efficiency of the Alexandria City Public Schools. This superintendent evaluation process is designed to be a collaborative effort between the Board and Superintendent of Schools to formulate professional goals for the Superintendent related to the performance standards as well as the needs of the school division.

Performance Standards

The performance standards outlined in this document were adopted by the Virginia Board of Education on September 27, 2012 for implementation on July 1, 2014.

The seven performance standards that serve as the basis of the superintendent's evaluation are as follows:

- 1. Mission, Vision and Goals:** The superintendent works with the local school board to formulate and implement the school division's mission, vision, and goals to promote student academic progress.
- 2. Planning and Assessment:** The superintendent strategically gathers, analyzes, and uses a variety of data to guide planning and decision-making consistent with established guidelines, policies, and procedures that result in student academic progress.
- 3. Instructional Leadership:** The superintendent fosters the success of all teachers, staff, and students by ensuring the development, communication, implementation, and evaluation of effective teaching and learning that leads to student academic progress and school improvement.
- 4. Organizational Leadership and Safety:** The superintendent fosters the safety and success of all teachers, staff, and students by supporting, managing, and evaluating the division's organization, operation, and use of resources.
- 5. Communication and Community Relations:** The superintendent fosters the success of all students through effective communication with stakeholders.
- 6. Professionalism:** The superintendent fosters the success of teachers, staff, and students by demonstrating professional standards and ethics, engaging in continuous professional development, and contributing to the profession.
- 7. Division-wide Student Academic Progress:** The superintendent's leadership results in acceptable, measurable division-wide student academic progress based on established standards.

Performance Indicators and ACPS Areas of Focus have been aligned with the seven performance standards. Measurements, Evidence, Artifacts, and Key Performance Indicators (KPIs) have been identified to accompany the superintendent's evaluation to determine the summative rating for each performance standard.

Evaluation Process

The Superintendent shall be evaluated annually. The evaluation process consists of a minimum of three closed meetings between the School Board and the Superintendent. The first meeting is a goal-setting conference. The outcome of the goal-setting conference is mutually agreed upon goals and what evidence of goal attainment is acceptable to the Board and Superintendent. The second meeting is a mid-year conference. The mid-year conference provides an opportunity for the School

Board and the Superintendent to review goal progress and discuss relevant data including measurements, evidence, artifacts, and key performance indicators.

The final meeting is the summative evaluation conference. At the conclusion of the evaluation cycle, the Superintendent's performance is tentatively rated by each School Board member on each of the seven standards.

The School Board and Superintendent will then have a closed session in which individual Board members can share their feedback on each standard, and the Superintendent has the opportunity to share additional information for Board consideration. Following the closed session, School Board members finalize their individual ratings and comments including glows which are highlights and grows which are areas to improve, and a consolidated summary of these individual School Board member ratings is created based on the methodology described in this document.

These ratings are based on observations of the School Board members and evidence submitted by the Superintendent as follows:

Accomplished = 3.5-4.0

Proficient = 2.6-3.4

Developing/Needs Improvement = 1.6-2.5 Unsatisfactory = 1.0-1.5

A rating for each standard is determined as follows:

Step 1: Collect the rating for the standard from each school board member.

Step 2: Eliminate the highest and lowest rating.

Step 3: Add the remaining seven ratings.

Step 4: Divide each sum of the remaining seven ratings by seven.

Step 5: Round to the nearest tenths.

Goal-Setting Form**

Superintendent:

School Year:

The Superintendent will complete Sections I-IV in order to share during the goal-setting conference. The Superintendent will complete Section V in order to share during mid-year review.

I. Context (Describe the division context and any unique circumstances affecting the school community as a whole):

The 2020-21 school year brings great uncertainties and opportunities for ACPS. We opened our doors in a Virtual PLUS+ Learning environment where all students receive their instruction virtually. Our FY21 combined funds budget was reduced by over \$12M and we've put a freeze on salaries and new hires while increasing expectations and anxiety of our staff. In spite of the global pandemic, we are still faced with implementing our newly adopted strategic plan, ACPS 2025: Equity For All, and ensuring that our over 16,000 students are engaged in learning and continuously being prepared for the ever-changing world. In addition to our global pandemic challenges and opportunities, ACPS is in the process of transitioning students to in-person learning with a phased approach, renaming two schools including T.C. Williams High School and Matthew Maury Elementary School, building a new Douglas MacArthur Elementary School, designing our Minnie Howard campus for the Connected High School Network, finalizing our stadium lights project for the high school, and preparing for a financially strained FY22 budget season including combined and capital improvement program funds due to the economic downturn from COVID-19.

II. Goal Statement

The superintendent has a goal to continue with implementation of the school division's five year strategic plan, ACPS 2025: Equity for All, while pivoting to adjust to transitioning into a phased in-person learning approach.

III. Standards to which the strategies relate (Check each that applies)

X Mission, Vision and Goals: The superintendent works with the local school board to formulate and implement the school division's mission, vision, and goals to promote student academic progress.

X Planning and Assessment: The superintendent strategically gathers, analyzes, and uses a variety of data to guide planning and decision-making consistent with established guidelines, policies, and procedures that result in student academic progress.

X Instructional Leadership: The superintendent fosters the success of all teachers, staff, and students by ensuring the development, communication, implementation, and evaluation of effective teaching and learning that leads to student academic progress and school improvement.

X Organizational Leadership and Safety: The superintendent fosters the safety and success of all teachers, staff, and students by supporting, managing, and evaluating the division's organization, operation, and use of resources.

X Communication and Community Relations: The superintendent fosters the success of all students through effective communication with stakeholders.

X Professionalism: The superintendent fosters the success of teachers, staff, and students by demonstrating professional standards and ethics, engaging in continuous professional development, and contributing to the profession.

X Division-wide Student Academic Progress: The superintendent's leadership results in acceptable, measurable division-wide student academic progress based on established standards.
