As a mother of two severely immune compromised, elementary aged students unable to receive the COVID vaccine yet, I urge the ACPS school board to follow the example of the federal government and other local school districts in requiring K-12 teachers to be vaccinated. Across the board vaccination for city employees working with children will be a safeguard for promoting in-school teaching and ensure the safety of the most vulnerable in society right now-our children. There is no legal reason not to do so, and is in the best interest of our community's public health.
