I just learned that you are considering delaying the decision to rename TC until 2021. What? I've lived in Alexandria for 13 years and hope to send my kids to TC some day. I only just learned about the history, which is disgraceful (the history and the fact that I never knew). Surely you've known longer – yet are still waiting? Why? You should make the decision now – don't wait – this is a critical signal to our community.
