Parent/Guardian of an ACPS Student

Dr. Hutchings should not be approved to write a book and utilize an ACPS consultant. Our school system is in a crisis. Most students, especially elementary students, have learned very little in 18 months. Test scores demonstrate how far behind students are. It has never been more important to focus on how we catch up this learning gap and improve COVID safety procedures to keep students and teachers safely in school. We need a superintendent giving 100% to these important issues. He needs to be focused on actually keeping schools running and making sure kids and teachers are as safe as possible. Why is it he has time to write a book but doesn't have time to figure out outdoor lunch? Let's focus on what matters or take a leave of absence to write a book.
