

This summer, ACPS will offer summer enrichment programs for students from kindergarten through high school at a variety of locations.

Programs include kindergarten and middle school prep programs, summer band camp, programs for middle school students needing support in math, high school students who need to make up credits or want to get ahead, and a dual language academy.

The highly successful Summer Enrichment Program launched last year that incorporated a summer camp style with high standards of learning will also be offered to students who could benefit from the program.

Below is an outline of programs, with details about who may attend each program, how to register and who to contact for additional information.
