

Elementary and K-8 Capacity Reassignment Clusters

Cluster	School Name	Notes
A	Patrick Henry	
A	James K. Polk	
A	William Ramsay	
A	Samuel Tucker	Modified Calendar School
B	Ferdinand T. Day	
B	John Adams	Dual Language School
B	William Ramsay	
C	Lyles-Crouch Traditional Academy	
C	Jefferson-Houston	
C	Naomi L. Brooks	
C	Douglas MacArthur	
D	Charles Barrett	
D	Cora Kelly	
D	George Mason	
D	Mount Vernon	Dual Language School

Clusters were developed for the following reasons:

- To help reduce/eliminate cross-city capacity reassignments
 - This past practice significantly increased the amount time capacity-transferred students spent on the bus, impacting their overall transportation and day-to-day educational experiences
- To be more efficient with transportation routing
 - Efficient routing reduces carbon emissions/footprint, saves on fuel costs and complements current transportation staffing
- This is in alignment with the glossary definition of “Clusters/Capacity Reassignment Cluster” noted within [School Board Regulation JC-R/JCD-R](#)
