Dear School Board members,

In the FY 2025–2034 Capital Improvement Program, I ask you to:

1. Fund required Green Building elements of major projects -- Fully fund required green building and net zero energy elements for the George Mason and Cora Kelly school rebuilds and other CIP capacity and renovation projects.

2. Develop an Energy and Climate Resilience strategy -- Include development of an Energy and Climate Resilience strategy to guide capital decision-making, facilities maintenance and operations, and meet community goals. ACPS lacks a roadmap

3. Fill the open Energy Manager position, and make it a holistic Climate & Sustainability manager position -- Support the Capital Program by filling the already budgeted Energy Manager Position that has been open and on hold for over a year. This position should be made a more holistic Climate and Sustainability Manager position to coordinate ACPS work across various facilities and operations offices.

Respectfully,

Peter
