I have a first and third grader at Polk and we have carved out a solid routine during this rudderless time. Upending that yet again in the name of “equity across the division” seems cruel to students, teachers and parents. Of particular importance to my family and the 2 neighborhood families we interact with is the unified lunch and recess period across grade levels. This allows all children in the group to come together (with Covid safety in mind) – play, eat and most crucially – return to studies AT THE SAME TIME. No haggling of “but she isn’t going back to class yet!” Avoiding that power struggle, particularly if we are keeping this up until June 23, is of tantamount importance.</p> <p>I also want to express my concern over the rolling of the science and social studies curriculum into reading and math blocks. To do this on the fly seems to be asking teachers to jump yet another hurdle. We know that deep background knowledge is crucial in developing strong reading skills so to shortchange these important subjects hurts that important skill.</p> <p>I know that there are many differing opinions at the moment and I wish you all clear minds and restful nights.</p>
